## LOW CARBON ECO DESIGN/ 低碳生态设计

Using Danish urban farming progressive ideas and principles. Promoting a (near) zero carbon nature based design maximising recycled buildings or components, reducing operation resource, energy saving facade upgrade, sensor responsive lighting and water conserving technology.

采用丹麦城市农业的先进理念，推广（接近）零碳的可持续设计，最大限度地回收老旧建筑部件，使用树木修剪的剩余部分制作立面、天花板景观铺设，从而减少运营资源，升级节能立面、传感器响应照明和节水技术。
